## PROFILE

A motivated fresh graduate in Information Technology with hands-on experience in web development and augmented reality applications. Skilled in Unity, PHP, and content management systems, with a strong foundation in UI/UX, troubleshooting, and project collaboration. Passionate about building user-centered digital solutions that blend creativity with functionality, and eager to grow in a dynamic tech environment.

## WORK EXPERIENCE & PROJECTS

**ARKTECH Philippines INC.** 2025  
Web Developer | Full Stack PHP

- Redeveloped a fully functional PHP website, incorporating AJAX for smooth asynchronous operations and DataTables for dynamic, interactive table displays. Built and integrated a comprehensive admin-side CMS for efficient management of website content and customer inquiries.

**Museo ni Miguel Malvar** 2025  
Unity AR Developer | C#

- Developed an augmented reality application using Unity & C# for Museo ni Miguel Malvar in Sto. Tomas, Batangas, aimed at integrating historical elements with modern technology to enhance visitor engagement and address the museum's challenges in attracting and retaining interest.

**ArtExpo | Batangas State University** 2024  
WordPress WooCommerce

- Designed and developed a functional e-commerce website as part of an academic project using WordPress and WooCommerce. Integrated PayPal Sandbox for secure test payments and implemented order tracking to simulate real-world purchase and delivery workflows.

## EDUCATION

**Batangas State University JPLPC - Malvar** 2021 - 2025  
BS Information Technology  
Major in Service Management
